

**IPALM** COMPANY PROFILE

---

## WHO IS IPALM ?

Started in 2005 as a supply chain management company for the Nee Soon Tat group of companies, IPalm have grown from that import/export business model into a well known Palm Oil Plant's Main Contractor as well as front runner in introducing many Renewable Energy Technologies namely being among the first to build EFB Pellet Plant in the world for FELDA to completing the RM 42 million ringgit Sime Darby NURI Refinery OSBL Package.

IPalm is also actively promoting the POME Biogas technology to the Palm Oil Industry with our well proven technological partners from Thailand as well as local Malaysian. Besides these, IPalm have over the years been entrusted by big multinationals from Germany as well as Japan to build as OEM Manufacturer for their respective oil seed press as well as briquetting machines among others.

Recently IPalm also have launched its own brand of Industrial Gear Reducer together in a JV with a well known Korean Manufacturer.

We are a very progressive company dedicated and passionate about bringing the latest technology, predominantly into our core industry, the Palm Oil Industry !

“Dedicated to bringing tomorrow's advancement to the industry, TODAY!”
